Agency for Toxic Substances
and Disease Registry

CS316535

We're Here to Answer Your Questions

Gift card

Reminder: As a token of our appreciation for your participation, you'll receive up to \$75 in gift cards for completing the entire study.

Is Your Child Participating?

What to Bring for Each Child

First morning urine sample

Prescription medications and vitamin/mineral supplements

Medical history, birth mother's work history and drinking water habits from 1993 to present, and any work history for the child

Results from previous PFAS blood testing programs (if applicable)

Important

Be sure your child takes his or her usual medication, unless your doctor says otherwise

What to Expect

The process for children will be the same as adults with two exceptions:

1

A parent or guardian must accompany the child, preferably the birth mother who can answer questions about her pregnancy

2

Children age 5 years and over will also have a second appointment to complete several behavioral tests like:

- Playing memory games
- Sorting items into categories
- Solving puzzles
- Reacting to photographs

1 ½ to 2 HOURS

While Waiting...

You shouldn't have to wait too long, but we'll have crayons and coloring books for young children. Feel free to bring electronic devices, games, or books from home.
